

Ultimate Performance

Speeds up to **4800**
 Nigiri sushi rice balls / hour

"Superior sushi rice shaping technology that creates the great handmade texture made by professional sushi chefs."

Compact Sushi Machine SSN-JLX-EH

Make Perfect Soft and Fluffy Nigiri Sushi Rice Balls

Creates consistent, high quality nigiri sushi rice balls using our proven technology for accurate measuring for perfect traditional shaped nigiri sushi rice balls without kneading, crushing, or cutting the rice grains.

Easy User Operation

Simple operation using the LCD touch screen panel to adjust speed, softness, weight, and compression. Set user language preference in English, French, German, Spanish, Korean, Chinese, or Japanese.

** Asian region model can be displayed in English, Chinese, Korean, and Japanese languages.*

Integrated Rice Warmer

Keep the sushi rice at the optimal temperature to allow for the output of warm nigiri sushi rice balls.

Choose from Two Different Sized Rice Hoppers

Standard Hopper: Approx. 10kg (22.05lb)
