

February 13, 2024

Dear valued customer,

Notice of Price Revision

Due to recent drastic increase in cost such as raw material, electric parts, logistic, energy and so on, manufacturing cost has been increasing. We had been making our own effort in order to absorb them internally, however current business circumstances do not allow us to maintain the same quality of products without revision of the price.

We are afraid that new pricing for both machines and parts will be applied to purchase order received on and after April 1st 2024.

We keep working on providing the best quality of products and service. Your understanding is much appreciated.

1. Price Revision:

Product	Price Revision Rate
Machines (tabletop model)	+7~10%
Machines (industrial model)	+10%
Parts	+20%

2. Date of Revision: Purchase order received on and after April 1st 2024

For further information and inquiries, please contact person in charge of your account.

Sincerely,

Global Business Division

Suzumo Machinery Co., Ltd.
